

Ajay Chawada

Experience: 3.5+ years
Location: Mumbai

Role: Frontend developer (React JS / React Native)
Contact: +91 7021375254 | ajaychawda1997@gmail.com

Looking for a position as front-end developer in growth-oriented company where I can utilize my skills to the company's advantage, as well as develop my own skills and career.

Technical Skills

Languages: JavaScript, **React JS**, **React Native**, **Sass**, HTML, CSS & TypeScript

Tools / Software: Visual studio code, **Android studio**, Git hub, Git lab, Jira, XCode, Figma & **Firebase**

Popular NPM Package: react-router-dom, react-redux, react-saga, styled-component, axios, react-query etc.

Professional Experience

Codemonk (Elvago technology)

Sept 2021 – **Present**

GreytHR (HRMS Mobile application - React Native)

*The App offers productivity tools for better delivery of HR services such as pay roll, attendance management, leave management, helpdesk to **15K+ small and medium businesses across 150+ cities**.*

Google Analytics

- Integrated **Google Analytics** for **tracking** more than **1 million user's** behaviour such as **screen tracking**, campaigns and traffic sources (**APK download source**), company URL, users by country, state, mobile platform (iOS / android), **average user engagement time** etc.

Feeds

- Implemented "Create **a post**" **feature** with text, links and **attachments** (supports docs, image & gif)
- Implemented functionalities such as **scrolling pagination**, **delete post**, **like / dislike post**, **add / delete comment** & "New post available" feature.
- Filter** the feeds based on latest interacted & most recent feed, **view comments / liked** by users and **download attachment** attached to post.

Helpdesk

- The Helpdesk module allow employee to raise requests for their queries from different categories and the reviewers review the raised tickets in order to resolve them.
- Implemented functionalities such as raise a new request, view pending and resolved requests with scrolling pagination.
- Reviewer can view, comment, resolve, close and forward the request.

Quick-links

- Add / remove / update quick links based on a user's priority & easily switch between screens

Also worked on login flow, **performance optimization**, attendance override & document center module.

Timesheet (React JS)

A web application for project members to record their time usage each day

- **Converted class components into functional components.**
- Implemented Add, update, delete a record.
- Added Different types of employee reports with filter and search and export to excel feature (Billable hours, non-billable hours, filter based on employee or project).
- Improved the performance and implemented responsive design.

IBC App (React Native)

A package tracking app for IBC staff to perform day-to-day operations on their courier business.

- **Published app** on App Store and Play Store, Created common re-useable components etc.
- Implemented Sign up form, Company police Screens, saved card UI, tracking details etc.

I also worked on **10mins Question web App (React js)** and **Analogic mobile App (React native)**.

Personal Project

SNKRS (React) Live app: <https://ajay24897.github.io/snkrs/>

Shoe e-commerce app developed with **React, Sass, Google Firebase authentication & Firestore**

- Stored product information and base64 image in Firestore database.
- Authentication (**sign up, login & logout**).
- Rendered product list for men's, women's and unisex category with scrolling **pagination & nested routing**.
- Implemented "**Add to Cart**", checkout, **share link of product on WhatsApp** and download shoe image functionality.
- **Image carousel, CSS animation, transitions & zoom-in product image** on hover (zoomed image relative to cursor). **Responsive design** as per different device sizes.

Education

- B.Tech in Electronics and telecommunication (Mumbai university)

Jun 2015 – May 2019

Certifications & Achievements

- React - Hacker Rank
<https://www.hackerrank.com/certificates/ece190b93d41>
- JavaScript - Hacker Rank
<https://www.hackerrank.com/certificates/81de0e66208a>
- Created and deployed **2 React native packages on NPM**

Hobbies

- Learning new library and building projects, trekking and listening music
