
A proficient front-end developer with **4.7+ years** of experience excels in using **React.js & React Native** to craft dynamic web & mobile apps, delivering tailored solutions that enhance user experiences effectively.

Technical skills

Languages/Framework: JavaScript, React JS, React Native, Sass, HTML, CSS, **Tailwind**, & TypeScript

Tools/Software: VS code, **Android studio**, **Xcode**, Git, Bit bucket, Jira, **Firebase**, App Center, **Mixpanel**,

Popular NPM packages: Axios, **Reanimated**, **Redux**, react-native-permission, react-router-dom & navigation, Styled component, react-hook-form, Lodash, react-native-paper, react-icons, react-native-gesture-handler etc

Professional experience

OnEmi Technology (Kissht | Ring)

Mar 2023 – Present

Kissht - Money lending **mobile app** with **10+ million downloads** on Play Store & **4.5 rating** (React Native)

Fastcash loan (Role – API integration, Implement smooth UI, APK creation & Production release)

- Developed user **onboarding journey** to gather personal details, employment information, address, **selfie verification**, PAN number & aadhar details, ensuring a seamless experience.
- Created an **offer page** presenting users with loan details including amount, tenure, interest rate, repayment dates, Key Facts Statement (KFS), and enabling seamless **addition of bank details**
- Regularly **deployed code updates to production**, ensuring users have access to the latest features.
- Integrated **Mixpanel events** for business teams to **track user journeys**, spot trends & optimize **funnels**
- Created **reusable components**, **custom hooks** and configured the app

Flexi loan: Implemented the flexi loan offer, tailored to each user's eligibility. This approach allows users to **customize their loan** by adjusting both the loan amount & selecting a tenure that suits their preferences.

Top-up loan: Developed the top-up loan feature, enabling users to access **additional loan amounts** on top of their existing loans & typically offered to individuals with a proven track record of timely repayments.

Ring – Money lending **mobile app** (Credit limit - BNPL, personal loans, bank transfer, Bill payment, etc)

Power loan

- Redesigned onboarding, added **redux** for state management, **animations** for visual appeal, & bank add feature with **NACH mandate** for auto debit.
- Implemented **Setu verification** in the app to seamlessly access users' bank credit & debit transactions, enabling a better understanding of user eligibility for higher loan limits.
- Integrated **Blitzllama** for collecting user feedback
- Completed POC on **Strapi** (headless CMS). Implemented **deep link**, **Splash screen**, etc
- Implemented **TATA & PFL** (Poonawalla Fincorp Limited) DSA module
- Created APK, shared via **Firebase app distribution** & lead app releases for code push

Personal projects

Voias AI - React Native & **OpenAI** (ChatGPT & Dall-E) - [Video link](#)

- A voice assistant app integrated with **OpenAI API**, which **allows search queries through voice recognition** & creates an **image from a description**. Added **text-to-speech** functionality, elegant gradient UI, and smooth navigation.

Hungry Tummy - React Native, **Reanimated**, **NativeWind** & **MealDB** - [Video link](#)

- An online **meal-ordering app** with captivating animations and a sleek UI for the best user experience. Integrated with MealDB API. Added **Lottie animations & react-native-reanimated animation**, Added features such as **searching meals by text** or categories, adding to cart, adding coupons, applying orders & viewing previous orders

Education

B.Tech In Extc from **Mumbai University** (Jun 2015 - May 2019)
