SUMMARY

Frontend Engineer with 7+ years of expertise in architecting and delivering high-performance React and React Native applications. Specialized in building scalable, secure fintech and SaaS platforms used by millions, including large-scale systems serving 60M+ users. Proven ownership of end-to-end feature development, performance optimization, and production-grade application delivery.

SKILLS

Languages

JavaScript (ES6+), React, React Native, TypeScript, HTML5, CSS3, Jest, NextJs

AI Tools

Cursor, GitHub Copilot, ChatGPT, Claude

Software and Tools

Git, Bitbucket, AWS, Firebase, Android Studio, Xcode, Mix panel, Google Analytics, Sentry, MS Clarity

Libraries

Redux, Redux Toolkit, React Router, Axios, React Query, Tailwind CSS, Material UI, Sass, Styled Components

EXPERIENCE

SDE II (React and React Native)

OnEmi Technology - Kissht

📅 03/2023 📍 Mumbai, India

Money Lending App (React and React Native | 60M+ users)

- Architected RBI/KYC-compliant fintech platform serving 60 Million+ users.
- Integrations with 10+ partners (**Flipkart**, **PhonePe**, TATA Neu, **Paytm**, No broker, India Lends).
- Boosting referral traffic by 70%.
- Launched Flexible and Business Loan products, improving portfolio offerings and user acquisition.
- Produced a modular UI library (35+ screens, 50+ APIs), accelerating delivery by 30%.
- Improved loan approval rates by **7%**.
- Increased repeat engagement by 18% through dynamic, configurable loan journeys.
- Enhanced performance (code-splitting, lazy loading), improving Core Web Vitals.
- Reduced development time by 30% using AI-assisted workflows.
- Streamlined Aadhaar verification, bank addition, NACH linking, and account aggregator flows, enabling secure and seamless financial access.
- Built WebSocket and SSE-driven live update flows to improve real-time application responsiveness.

Software Engineer (React Native)

Elvago Technology - Codemonk

📅 09/2021 - 02/2023 📍 Mumbai, India

HRMS App

- Engineered an HRMS mobile app adopted by **15,000+ SMBs** across **150+ cities**, scaling the platform to support 1M+ end users.
- Owned and delivered core product modules - Attendance, Leave, Feeds, and Helpdesk - using a scalable, component-driven React Native architecture.
- Integrated REST APIs and Google Analytics to capture user-behavior data, enabling data-informed product decisions and roadmap prioritization.
- Led code reviews across the team, enforcing frontend best practices and maintaining consistent code quality standards.

React JS Developer

Metasys Software

📅 07/2019 - 09/2021 📍 Mumbai, India

- Developed courier tracking and timesheet applications.
- Constructed reusable UI components and API integrations within Agile sprint cycles, ensuring consistent code quality and on-time feature delivery.
- Migrated legacy class components to modern functional components with React Hooks.
- Designed scalable role-based access control modules to control user access across multiple application roles.

PERSONAL PROJECTS

SNKRS - E-Commerce Shoe App

- Engineered a responsive e-commerce storefront using React, Sass, Firebase Auth, and Google Firestore.
- Executed infinite scroll, pagination, filtering, and debounced search for faster product discovery.
- Added hover zoom effects, lazy loading, and responsive UI animations to improve engagement.
- Strengthened rendering and data fetching, improving performance across large product catalogs.
- Established secure authentication and persistent cart/checkout flows for seamless user experience.

Voice assistant - Powered by AI

- Implemented text-to-speech and AI-powered chat workflows for hands-free interactions.
- Integrated AI image generation and dynamic prompt handling for multimodal assistant capabilities.
- Optimized real-time streaming and state management for smooth, responsive user experiences.

EDUCATION

Bachelor of Engineering

University of Mumbai

📅 06/2015 - 05/2019
